- METRO DADE NOA 09-0610.10

FM 4471 Rating - FM 180

Bemo USA consistently provides one of the highest performing Structural Standing Seam Roofing Systems available in today's market. When your Life-Safety and Reputation are at stake don't settle for roofer owned - portable roll formed, low quality systems. Bemo USA can help you place the right system on your next project at a competitive price. Call us at 1-800-926-BEMO (2366) • Sales@BemoUSA.com

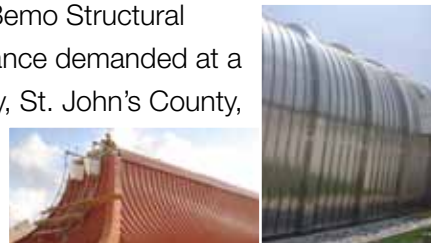

Hurricanes have hit buildings with Bemo Roofing installations and not suffered a single failure. Projects like Isle of Capri Casino, Saipan International Airport, Puerto Rico Convention Center, Tampa International Airport, Clearwater Library, New Smyrna Beach High School, Hilton Garden Inn Miami, Kennedy Space Center and Hydro Aluminum among many others.

School Districts across Florida rely on Bemo Structural Standing Seam to provide the performance demanded at a price that is competitive: Volusia County, St. John's County, Hillsborough County, Bay County, Broward County . . .
